FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.203 sets out the reimbursement guidelines for professional medical services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 150 – Payer deems the information submitted does not support this level of service.

Issues

1. Did the requestor support disputed services are payable?
2. Is the requestor entitled to reimbursement?

Findings

1. 28 Texas Administrative Code §134.203(b)(1) states, in pertinent part, “for coding, billing reporting, and reimbursement of professional medical services, Texas Workers’ Compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; ... and other payment policies in effect on the date a service is provided...” Review of the submitted documentation finds that the requestor performed an office visit for the evaluation and management of an established patient. The American Medical Association (AMA) CPT code description for 99214 is:

Office or other outpatient visit for the evaluation and management of an established patient, which requires at least 2 of these 3 key components: A detailed history; A detailed examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Typically, 25 minutes are spent face-to-face with the patient and/or family.

The 1997 Documentation Guidelines for Evaluation & Management Services is the applicable Medicare policy. It describes the documentation requirements for the service in dispute. Review of the documentation finds the following:

- Documentation of the Detailed History
 - History of Present Illness (HPI) consists of at least four elements of the HPI or the status of at least three chronic or inactive conditions. Documentation found listed no chronic conditions, thus this component was not met.
 - Review of Systems (ROS) requires two to nine systems to be documented. Documentation found none listed, this component was not met.
 - Past Family, and/or Social History (PFSH) requires at least one specific item from any three history areas to be documented. The documentation found no history areas. This component is not met.
- Documentation of a Detailed Examination:
 - Requires at least six organ systems to be documented, with at least two elements per listed system. The documentation found listed no body/organ systems. This component was not met.

2. Review of the submitted documentation finds that required elements of 28 Texas Administrative Code §134.203 have not been met. No payment can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
